

# MATWORKS

COMPREHENSIVE FLOORING SOLUTIONS

## Sure Stride

Sure Stride® matting is low-profile, on-demand matting designed to help prevent slips, trips, and injuries caused by moisture. Mats dissipate liquids quickly for a faster drying time and feature a moisture barrier that keeps fluids from soaking through your floors. Sure Stride Matting has an anti-microbial treatment that helps prevent odors and bacteria growth. This hassle-free matting can be left in place during routine cleaning and cut from the roll on demand, as needed.

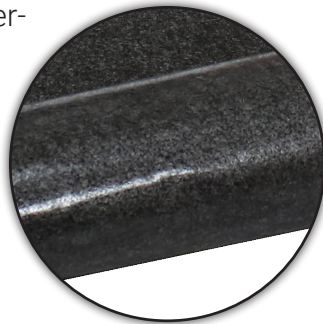

# PRODUCT INFO

## Slip-Resistant Matting

## SURE STRIDE'S DURABLE ADHESIVE BACKING

Sure Stride provides the best-performing and user-friendly backing in the industry through a molten polymer backing process. The backing allows the product to be removed with zero adhesive transfer and fiber that will not separate from the backing. Our hassle-free backing allows mats to be left in place during routine cleaning; floor scrubbers, vacuums, and mops will pass right over without causing damage to existing floors, helping you save time, labor, and money. The low-profile design enhances appearance while the overall construction helps to eliminate slips, trips, and falls, reducing the store's liability & claims. Safety has never been so easy!

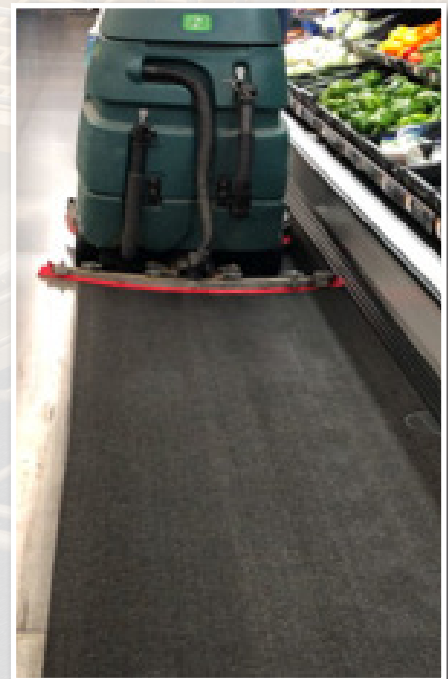

**Matworks' turnkey program provides installation, removal, and replacement of Sure Stride matting on a 90-day cycle to ensure maximum performance, taking the load off you.**
